

Prime Dental Clinic

Stunning Smile, Beautiful Teeth

www.primedentalbudapest.co.uk

July 20th 2010

For the past 3 years I have suffered with my teeth, until 18 months ago I needed to have them all out due to gum disease. I then struggled with dentures before being quoted £26k for just 6 implants and a sinus lift in the UK. This included using 2 different clinics in the UK as all the required expertise was not available in one clinic.

I then discovered Primedental. What a difference. This was the 1st time I lost fear of a dentist and had total confidence. Also less than 1/2 price of UK, and far better treatment. Here I had 10 implants and the best care of any previous dentist.

Outstanding dental treatment and care, must be amongst the best anywhere in the world.
